

agreements. Any certification, transit permit, limited permit, or compliance agreement which has been issued or authorized may be withdrawn by an inspector orally or in writing, if such inspector determines that the holder thereof has not complied with all conditions under the regulations for the use of such document. If the cancellation is oral, the decision and the reasons for the withdrawal shall be confirmed in writing as promptly as circumstances allow. Any person whose certification, transit permit, limited permit, or compliance agreement has been withdrawn may appeal the decision in writing to the Administrator within 10 days after receiving the written notification of the withdrawal. The appeal shall state all of the facts and reasons upon which the person relies to show that the certification, transit permit, limited permit, or compliance agreement was wrongfully withdrawn. The Administrator shall grant or deny the appeal, in writing, stating the reasons for such decision, as promptly as circumstances allow. If there is a conflict as to any material fact, a hearing shall be held to resolve such conflict. Rules of practice concerning such a hearing will be adopted by the Administrator.

(g) *Container marking and identity.* Except as provided in § 318.13-6(c), consignments of regulated articles moved in accordance with this subpart must have the following information clearly marked on each container or on the waybill, manifest, or bill of lading accompanying the articles: Nature and quantity of contents; name and address of shipper, owner, or person shipping or forwarding the articles; name and address of consignee; shipper's identifying mark and number; and the certification stamp or number of the limited permit authorizing movement, if one was issued.

(h) *Refusal of movement.* An inspector may refuse to allow the interstate movement of a regulated article if the inspector finds that the regulated article is prohibited, is not accompanied by required documentation, is so infested with a plant pest or noxious weed that, in the judgment of the inspector, it cannot be cleaned or treated, or con-

tains soil or other prohibited contaminants.

(i) *Costs and charges.* Services of the inspector during regularly assigned hours of duty at the usual places of duty shall be furnished without cost to the one requesting such services. APHIS will not assume responsibility for any costs or charges, other than those indicated in this section, in connection with the inspection, treatment, conditioning, storage, forwarding, or any other operation of any character incidental to the physical movement of regulated articles or plant pests.

(j) *APHIS not responsible for damage.* APHIS assumes no responsibility for any damage to regulated articles that results from the application of treatment or other measures required under this subpart (or under part 305 of this chapter) to protect against the dissemination of plant pests within the United States.

[74 FR 2775, Jan. 16, 2009, as amended at 75 FR 4249, Jan. 26, 2010]

§ 318.13-4 Approval of certain fruits and vegetables for interstate movement.

(a) *Determination by the Administrator.* The Administrator has determined that the application of one or more of the designated phytosanitary measures cited in paragraph (b) of this section to certain fruits and vegetables mitigates the risk posed by those commodities, and that such articles may be moved interstate subject to one or more of those measures, as provided in paragraphs (c) and (d) of this section. The name and origin of all fruits and vegetables authorized movement under this section, as well as the applicable requirements for their movement, may be found on the Internet at http://www.aphis.usda.gov/import_export/plants/manuals/ports/downloads/hawaii.pdf or http://www.aphis.usda.gov/import_export/plants/manuals/ports/downloads/puerto_rico.pdf. Fruits or vegetables that require phytosanitary measures other than one or more of the designated phytosanitary measures cited in paragraph (b) of this section may only be moved in accordance with applicable requirements in § 318.13-3

and regulated article-specific requirements contained elsewhere in this subpart.

(b) *Designated phytosanitary measures.*

(1) The fruits and vegetables are inspected in the State of origin or in the first State of arrival.

(2) The fruits and vegetables originated from a pest-free area in the State of origin and the grower from which the fruit or vegetable originated has entered into a compliance agreement with the Administrator.

(3) The fruits and vegetables are treated in accordance with part 305 of this chapter and the treatment is certified by an inspector.

(4) The fruits and vegetables articles are inspected and certified in the State of origin by an inspector and have been found free of one or more specific quarantine pests identified by risk analysis as likely to follow the pathway.

(5) The fruits and vegetables are moved as commercial consignments only.

(6) The fruits and vegetables may be distributed only within a defined area and the boxes or containers in which the fruit or vegetables are distributed must be marked to indicate the applicable distribution restrictions.

(c) *Fruits and vegetables authorized for interstate movement under this section—*

(1) *Previously approved fruits and vegetables.* Fruits and vegetables that were authorized movement under this subpart either administratively or by specific regulation as of February 17, 2009 and that were subject only to one or more of the designated phytosanitary measures cited in paragraph (b) of this section and the general requirements of § 318.13-3 may continue to be moved interstate under the same requirements that applied before February 17, 2009, except as provided in paragraph (d) of this section. The interstate movement conditions for those fruits and vegetables that were authorized movement under this subpart subject to additional measures beyond the designated measures in paragraph (b) of this section can be found in § 318.13-16 or one of the commodity-specific sections in this subpart.

(2) *Other fruits and vegetables.* Fruits and vegetables that do not meet the criteria in paragraph (c)(1) of this sec-

tion may be authorized movement under this section as follows:

(i) *Pest risk analysis.* The risk posed by the particular article from a specified State has been evaluated and publicly communicated as follows:

(A) *Availability of pest risk analysis.* APHIS published in the FEDERAL REGISTER, for a public comment period of 60 days, a notice announcing the availability of a pest risk analysis that evaluated the risks associated with the movement of the particular fruit or vegetable.

(B) *Determination of risk; factors considered.* The Administrator determined, and announced in the notice referred to in the previous paragraph, that, based on the information available, the application of one or more of the designated phytosanitary measures described in paragraph (b) of this section is sufficient to mitigate the risk that plant pests or noxious weeds could be introduced into or disseminated elsewhere within the United States by the fruit or vegetable. In order for the Administrator to make the determination described in this paragraph, he or she must conclude based on the information presented in the risk analysis for the fruit or vegetable that the risk posed by each quarantine pest associated with the fruit or vegetable in the State of origin is mitigated by one or more of the following factors:

(1) *Inspection.* A quarantine pest is associated with the fruit or vegetable in the State of origin, but the pest can be easily detected via inspection in the State of origin or in the State of first arrival;

(2) *Pest freedom.* No quarantine pests are known to be associated with the fruit or vegetable in the State of origin, or a quarantine pest is associated with the fruit or vegetable in the State of origin but the fruit or vegetable originates from an area that meets the requirements of § 318.13-5 for pest freedom;

(3) *Effectiveness of treatment.* A quarantine pest is associated with the fruit or vegetable in the State of origin, but the risk posed by the pest can be reduced by applying an approved post-harvest treatment to the fruit or vegetable;

(4) *Predeparture inspection.* A quarantine pest is associated with the fruit or vegetable in the State of origin, but the fruit or vegetable is subject to predeparture inspection;

(5) *Commercial consignments.* A quarantine pest is associated with the fruit or vegetable in the State of origin, but the risk posed by the pest can be reduced by commercial practices.

(6) *Limited distribution.* A quarantine pest is associated with the fruit or vegetable in the State of origin, but the risk posed by the pest can be reduced by limiting distribution of the fruit or vegetable and labeling boxes containing the fruit or vegetable with those distribution instructions.

(ii) *Administrator's decision.* The Administrator will announce his or her decision in a subsequent FEDERAL REGISTER notice. If appropriate, APHIS would begin allowing the interstate movement of the fruits or vegetables subject to requirements specified in the notice because:

(A) No comments were received on the pest risk analysis;

(B) The comments on the pest risk analysis revealed that no changes to the pest risk analysis were necessary; or

(C) Changes to the pest risk analysis were made in response to public comments, but the changes did not affect the overall conclusions of the analysis and the Administrator's determination of risk.

(d) *Amendment of interstate movement requirements.* If, after February 17, 2009, the Administrator determines that one or more of the designated phytosanitary measures is not sufficient to mitigate the risk posed by any fruit or vegetable authorized interstate movement under this section, APHIS will prohibit or further restrict the interstate movement of the fruit or vegetable pending resolution of the situation. If APHIS concludes that a permanent change to the interstate movement requirements of a particular fruit or vegetable is necessary, APHIS will also publish a notice in the FEDERAL REGISTER advising the public of its finding. The notice will specify the amended interstate movement requirements, provide an effective date for the

change, and invite public comment on the subject.

(Approved by the Office of Management and Budget under control number 0579-0346)

§ 318.13-5 Pest-free areas.

Certain fruits or vegetables may be moved interstate provided that the fruits or vegetables originate from an area that is free of a specific pest or pests. In some cases, fruits or vegetables may only be moved interstate if the area of origin is free of all plant pests that attack the fruits or vegetables. In other cases, fruits or vegetables may be moved interstate if the area of origin is free of one or more plant pests that attack the fruit or vegetable and the risk posed by the remaining plant pests that attack the fruit or vegetable is mitigated by other specific phytosanitary measures contained in the regulations in this subpart.

(a) *Application of standards for pest-free areas.* APHIS will make a determination of an area's pest-free status based on information provided by the State. The information used to make this determination will include trapping and surveillance data, survey protocols, and protocols for actions to be performed upon detection of a pest.

(b) *Survey protocols.* APHIS must approve the survey protocol used to determine and maintain pest-free status, as well as protocols for actions to be performed upon detection of a pest. Pest-free areas are subject to audit by APHIS to verify their status.

(c) *Determination of pest freedom.* (1) For an area to be considered free of a specified pest for the purposes of this subpart, the Administrator must determine, and announce in a notice published in the FEDERAL REGISTER for a public comment period of 60 days, that the area meets the criteria of paragraphs (a) and (b) of this section.

(2) The Administrator will announce his or her decision in a subsequent FEDERAL REGISTER notice. If appropriate, APHIS will allow movement of the regulated article from a pest-free area because:

(i) No comments were received on the notice or

(ii) The comments on the notice did not affect the overall conclusions of
